YES

In 2015, we were operating under a very inefficient and crowded condition on Long Island and we started a search for alternate locations for expansion. Our broker showed us properties in New Jersey which were affordable and had large expansion potential. We eventually found our current building and applied to the IDA for incentives, but had to withdraw that application as explained elsewhere in this presentation.

Relocating to New Jersey is still an option for our company, as we have many customers in New Jersey and Pennsylvania and could service our most profitable New York City-based customers quite easily from New Jersey.

- Other (specify): _____

C. Briefly describe the purpose of the proposed Project, the reasons why the Project is necessary to the Applicant and why the Agency's financial assistance is necessary, and the effect the Project will have on the Applicant's business or operations:

In 2015, Lifetime Chimney made a preliminary application to the Nassau County IDA to acquire our current location at 171 E. Ames Court. Due to time constraints and the inability to resolve the then pending real estate tax certiorari process in a timely fashion, we withdrew our IDA application. (Please see our Introduction/Inducement letter for

more details). We purchased our current location, a 25,230 square foot building on a 2.87 acre site, for \$3,000,000.00 with the assistance of NYBDC first mortgage financing and SBA 504 2nd mortgage financing. We anticipated a future expansion and planned to reapply to the IDA for Pilot savings to help us with our new construction.

Clearly, our business growth had been held back by the inefficiencies and space constraints of our previous location as evidenced by our 30% sales increase in our first full year operating at 171 E. Ames Court. We met and exceeded all our sales and employment growth projections after we moved into 171 E. Ames Court. Our move was a success.

Now, 3 years later, the company finds itself maxed out so much so that Lifetime had to buy 22 sea containers to temporarily warehouse raw materials and completed product on the property. We clearly need to expand.

This project involves the refinance of existing mortgages and placing an approximately \$1,800,000.00 new mortgage to be used for the construction of a 22,000 square foot, 35 foot high ceiling warehouse on the balance of our vacant lot. This will allow us to practically double our existing manufacturing plant and greatly expands our warehousing capacity and add new jobs.

- D. Is there a likelihood that the proposed Project would not be undertaken by the Applicant but for the granting of the financial assistance by the Agency? (If yes, explain; if no, explain why the Agency should grant the financial assistance with respect to the proposed Project)

YES X

NO

We clearly need to expand, but it is a costly undertaking and we need the assistance of the Nassau County IDA to proceed. If the IDA does not assist us, we have two options: we could move our entire operation to New Jersey and seek some incentives there. We had looked back in 2015 and the real estate prices were very attractive; or we could keep a small operation in our current location in East Ames to serve our Long Island customers and relocate and expand our manufacturing plant to New Jersey, where costs are less, and seek New Jersey incentives to defray the expansion. A New Jersey location with less expensive operating costs would allow us to service our significant Manhattan based customers in addition to the other current clients in New Jersey, Pennsylvania and the other 4 boroughs of New York City. In other words, our expanded and existing manufacturing operations and manufacturing and distribution and service employment growth would all occur in New Jersey.

- E. If the Applicant is unable to arrange Agency financing or other Agency financial assistance for the Project, what will be the impact on the Applicant and Nassau County?

Would the Applicant proceed with the Project without Agency financing or other Agency financial assistance? Describe.

See above

The newly constructed 22,000 square foot building will be used mostly for warehousing and chimney lining systems manufactured at the existing Lifetime Chimney plant next door. This building will also be used for distribution and shipping and receiving.

By shifting the current warehousing and distribution operation from Lifetime's current 25,000 square foot facility next door at 171 E. Ames Court, the company's manufacturing at 171 E. Ames will more than **double**. This is a significant manufacturing increase and is an extremely important result and integral part of this project.
