Resolution No. 2017-69

RESOLUTION FINDING THAT ACTION TO UNDERTAKE A
CERTAIN PROJECT FOR ROSLYN PLAZA HOUSING ASSOCIATES, L.P. WILL NOT
HAVE A SIGNIFICANT ADVERSE IMPACT ON THE ENVIRONMENT

Project Name: ROSLYN PLAZA HOUSING ASSOCIATES, L.P.

Location: 101-172 Laurel Street, North Hempstead, Nassau County, NY
(Section: 7; Block: 60; Lot: 321)

SEQR Status: Type I Unlisted XX

**Determination
of Significance:** Negative Declaration XX Positive Declaration

WHEREAS, the Nassau County Industrial Development Agency (the "Agency") is authorized and empowered by the provisions of Chapter 1030 of the 1969 Laws of New York, constituting Title I of Article 18-A of the General Municipal Law, Chapter 24 of the Consolidated Laws of New York, as amended (the "Enabling Act"), and Chapter 674 of the 1975 Laws of New York, as amended, constituting Section 922 of said General Municipal Law (said Chapter and the Enabling Act being hereinafter collectively referred to as the "Act") to promote, develop, encourage and assist in the acquiring, constructing, reconstructing, improving, maintaining, equipping and furnishing of manufacturing, industrial and commercial facilities, among others, for the purpose of promoting, attracting and developing economically sound commerce and industry to advance the job opportunities, health, general prosperity and economic welfare of the people of the State of New York, to improve their prosperity and standard of living, and to prevent unemployment and economic deterioration; and

WHEREAS, to accomplish its stated purposes, the Agency is authorized and empowered under the Act to acquire, construct, reconstruct and install one or more "project" (as defined in the Act) or to cause said project to be acquired, constructed, reconstructed and installed and to convey said project or to lease said project with the obligation to purchase; and

WHEREAS, ROSLYN PLAZA HOUSING ASSOCIATES, L.P., a limited partnership organized and existing under the laws of the State of New York (the "Applicant"), presented an application for financial assistance (the "Application") to the Agency, which Application requested that the Agency consider undertaking a project (the "Project") consisting of the following: (A)(1) the acquisition of an interest in an approximately 4.29 acre parcel of land located at 101-172 Laurel Street, Roslyn Heights, Town of North Hempstead, County of Nassau, New York (Section: 7; Block: 60; Lot: 321) (collectively, the "Land"), (2) the renovation of the existing approximately 96,806 square foot building on the Land and other related improvements to the Land (collectively, the "Building"), and (4) the acquisition of certain furniture, fixtures, machinery and equipment necessary for the completion thereof (the "Equipment"), all of the foregoing for use by the Applicant as a residential rental facility consisting of 104 units, of which 103 units shall be affordable units and 1 unit shall be a building

superintendent's unit (collectively, the "Project Facility"); (B) the granting of certain "financial assistance" (within the meaning of Section 854(14) of the General Municipal Law) with respect to the foregoing in the form of potential exemptions or partial exemptions from real property taxes and sales and use taxes (collectively, the "Financial Assistance"); and (C) the lease (with an obligation to purchase), license or sale of the Project Facility to the Applicant or such other entity as may be designated by the Applicant and agreed upon by the Agency; and

WHEREAS, any land transfer is being undertaken solely to effectuate the Financial Assistance to facilitate the Project and the Agency will only be the nominal holder of an interest in the Project for as long as is necessary to effectuate the Financial Assistance; and

WHEREAS, pursuant to Article 8 of the New York Environmental Conservation Law, Chapter 43-B of the Consolidated Laws of New York, as amended (the "SEQR Act") and the regulations adopted pursuant thereto by the Department of Environmental Conservation of the State of New York, being 6 N.Y.C.R.R. Part 617, et. seq., as amended (the "Regulations" and collectively with the SEQR Act, "SEQRA"), the Agency must satisfy the requirements contained in SEQRA prior to making a final determination whether to undertake the Project; and

WHEREAS, pursuant to SEQRA, to aid the Agency in determining whether the Project may have a significant adverse impact upon the environment, the Agency has completed, received and/or reviewed (1) Part 1 of a Short Environmental Assessment Form, dated December 12, 2017 (the "EAF"); (2) NYSDEC's Environmental Resource Mapper; (3) New York State Historic Preservation Office's Cultural Resources Mapper; (4) the U.S. Fish and Wildlife Service's Information for Planning and Consultation Mapper; and (5) other relevant environmental information (collectively, 1, 2, 3, 4, and 5 shall be referred to as the "Environmental Information"); and

WHEREAS, pursuant to SEQRA, the Agency desires to conduct a review of the Project to determine whether the Project may have a significant adverse impact on the environment and whether an Environmental Impact Statement must be prepared with respect to the Project.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NASSAU COUNTY INDUSTRIAL DEVELOPMENT AGENCY AS FOLLOWS:

Section 1. Based upon a thorough review and examination of the Environmental Information and upon the Agency's knowledge of the area surrounding the Land and such further investigation of the Project and its environmental effects as the Agency has deemed appropriate, the Agency makes the following findings with respect to the Project:

- (1) The Agency is undertaking an uncoordinated review of the Project in accordance with the requirements of SEQRA;
- (2) Prior to making a recommendation about the potential environmental significance of the Project, the Agency has consulted several information sources, and has considered the list

of activities which are Type I Actions outlined in Section 617.4 of the Regulations, the list of activities that are Type II Actions outlined in Section 617.5 of the Regulations, and the criteria for determining significance outlined in Section 617.7 of the Regulations; and

(3) In doing so, the Agency determined that the Project is an Unlisted Action pursuant to SEQRA as it involves the acquisition of an interest in an approximately 4.29 acre parcel of land and the interior renovation of an existing approximately 96,806 square foot Building on the Land with no land disturbance. The Project does not meet or exceed any threshold for a Type I Action.

(4) No potentially significant adverse impacts on the environment are noted in the EAF and none are known to the Agency.

Section 2. Based upon the foregoing investigations of the potential environmental impacts of the Project and considering both the magnitude and importance of each environmental impact indicated, the Agency has determined that the Project will not have a significant adverse impact upon the environment. The reasons supporting this determination are as follows:

1. Impact on Land. The Project is not anticipated to create any potentially significant adverse impacts to land resources or land use. The Project consists of the interior renovation of an existing approximately 96,806 square foot Building on the Land, and the acquisition of certain furniture, fixtures, machinery and equipment necessary for use by the Applicant as a residential rental facility. The zoning and land use classification will not change as a result of the Project. The Project is consistent with surrounding uses, which are commercial and residential in nature, and involves no land disturbance. Accordingly, the Project is not anticipated to create any potentially significant adverse impacts to land resources or land use.
2. Impact on Water. There are no wetlands on the Land and the Project will not create a new water body. The Project is not located in a designated 100 year floodplain. While the NYSDEC Mapper Summary Report does indicate that lands adjoining or nearby Land may contain wetlands or other regulated water bodies, the Land has been previously disturbed, and due to the Project consisting of interior renovations to an existing structure, the Project will not physically alter, or encroach into, any existing wetland or waterbody. Accordingly, the Project is not anticipated to create any potentially significant adverse impacts to water resources.
3. Impact on Air. The Project will not be a significant source of air emissions. The Project does not entail the types of activities or operations

that require the Applicant to acquire an Air Facility Permit or that are associated with a significant potential for air emissions. The Project does not involve new construction, and will not result in a significant increase in traffic. Accordingly, the Project will not create any significant adverse impacts to air resources.

4. Impact on Plants and Animals. The Land in the area of the Project does not possess significant ecological value as it is within a well-developed residential and commercial area. Accordingly, the Project will not create significant adverse impacts to plants, animals or natural communities, wildlife habitat or wetlands.
5. Impact on Agricultural Land Resources. The Project is located in an area currently used for commercial and residential purposes. The Project will not involve the conversion or loss of agricultural land resources. Accordingly, the Project will not create any significant adverse impacts to agricultural land resources.
6. Impact on Aesthetic Resources. The Project will not be visible from any officially designated federal, state or local scenic or aesthetic resource. The Land is situated in a well-developed area and is consistent with surrounding uses which are commercial and residential in nature. Accordingly, the Project is not anticipated to create any significant adverse impacts to aesthetic resources.
7. Impact on Historic and Archeological Resources. The Land and Project do not contain, nor are they adjacent to, a building, archeological site or district which is listed on, or that has been nominated to the State or National Register of Historic Places. While the NYSDEC Mapper Summary Report indicates that the Site is in an archeologically sensitive area, the Project consists of interior renovations to an existing facility and activities associated with the Project will have no impact on surrounding properties. Accordingly, the Project will not create any significant adverse impacts to historical or archaeological resources.
8. Impact on Open Space and Recreation. The Project does not comprise public open space nor is the Land or surrounding area currently used for public recreation. Accordingly, the Project will not create any significant impacts to open space or recreational resources.
9. Impact on Critical Environmental Areas. The Land is not located in or substantially contiguous to any Critical Environmental Area ("CEAs"). Accordingly, there will be no significant adverse impacts to CEAs.
10. Impact on Transportation. The Project will not result in a substantial increase in traffic above present levels or generate substantial new

demand for transportation facilities or services. Public transportation services are available near the Project. Accordingly, the Project will not create any significant adverse impacts to transportation.

11. Impact on Energy. The Project may result in a slight increase in energy usage, however, existing utility lines serve the Project and no significant improvements are necessary to accommodate the Project. Accordingly, the Project will not create any significant adverse impacts to energy.
12. Impact on Noise and Odor. The Project is not expected to appreciably increase ambient noise levels or to create odors. The Project does not involve the types of activities that create significant noise or odors. Accordingly, the Project will not create any significant adverse impacts relating to noise or odors.
13. Impact on Public Health. The Project does not entail the types of activities or operations that are associated with a significant potential for affecting public health, such as storing large amounts of hazardous or toxic materials. Any solid waste generated at the Project Facility will be properly disposed of pursuant to Federal, State and local laws and regulations. Accordingly, the Project will not create any significant adverse impact to public health.
14. Impact on Growth and Character of the Community and Neighborhood. The Project will not result in significant population growth, and is in character with adjacent residential development and surrounding uses. Accordingly, the Project will not create any significant adverse impacts to the growth or character of the community.
15. Considering all of the above, the Project will not have a significant adverse impact upon the environment and a negative declaration pursuant to SEQRA is hereby issued.

Section 3. The Chairman, the Vice Chairman, the Executive Director and the Administrative Director of the Agency are hereby further authorized on behalf of the Agency, or acting together or individually, to distribute copies of this Resolution to the Applicant and to do such further things or perform such acts as may be necessary or convenient to implement the provisions of this Resolution.

Section 4. This Resolution shall take effect immediately.

The question of the adoption of the foregoing Resolution was duly put to a vote on roll call, which resulted as follows:

Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing:	<input checked="" type="checkbox"/>	<input type="checkbox"/>
a. public / private water supplies?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. public / private wastewater treatment utilities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
11. Will the proposed action create a hazard to environmental resources or human health?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

No potentially moderate to large impacts have been identified. Applicants have provided Part I of the Short Environmental Assessment Form ("EAF"), along with supporting documentation which strongly supports issuance of a negative declaration. Please see attached Resolution/Negative Declaration.

- ☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- ☒ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
