APPLICANT’S FINANCIAL ATTACHMENTS
ENVIRONMENTAL ASSESSMENT FORM
FORM NYS-45

Attach most recent quarterly filing of Form NYS-45 and 45-ATT, as well as the most recent fourth quarter filing. Please remove the employee social security numbers and note which employees are part-time.
The Village of Westbury has undergone a multi-year process which culminated with the rezoning of properties around the downtown and train station. State grant funds were secured by the Village for this and other initiatives. One of the primary goals of the Village is to encourage redevelopment in this zoning district with new multifamily projects. This application is for a property 770’ from the train station and it will replace an old, blighted, underutilized warehouse property with a new vibrant luxury 59-unit multifamily building. Without the assistance of the NC IDA the project will not be economically viable, and Terwilliger & Bartone Properties will have no choice but to exercise its contractual option to terminate the project. In the event the applicant exercises its option to terminate the project, the property will remain as a blighted underutilized warehouse and office.

Without assistance from the NC IDA the project will not be economically feasible due to unpredictable real estate taxes and high construction costs. As a result, the property will not be re-developed, the tax base will not increase over time, no new work force housing units will be created, and it will have a negative impact on the Village's redevelopment goals.

Social and economic impacts on the community: The project will create a new, vibrant, well lit and staffed building in place of a blighted warehouse and office. Truck and tractor-trailer traffic from the warehouse and occupying business will be eliminated. It will introduce new residents into the community and provide a much needed housing option plus create new work force housing units. New discretionary spending being infused by the creation of 59 new housing units is forecasted to be approximately $2.13M which will help bolster the downtown. The project scores a 75 on the Walkscore.com scale being classified as “very walkable” which will encourage mass transit use and downtown foot traffic.

Infrastructure: Availability letters have been provided by PSEG, National Grid, NC Sewer District, and Westbury Water District. Further, the Village underwent a multi-year study to verify the new zoning laws and area re-development would not strain the local infrastructure. The site has private trash removal which creates zero impact on public sanitation.

Transportation: The project is 770’ from the Westbury train station in addition to numerous bus lines which will encourage residents to use mass transit and as such reduce auto dependency thereby easing traffic concerns.

Fire: The building will be constructed by today’s standards with fire separations and a NFPA type 13 fire sprinkler system all certified by the NC Fire Marshal. The elevator will be a 3500 lb stretcher rated elevator and the building has good fire department access from Railroad Ave.

Police: The building will be a secure resident access only building with CCTV and onsite staff.
EXHIBIT A

Upon acceptance of the Application by the Agency for processing and completion of the Cost/Benefit Analysis, the Agency will attach a proposed PILOT Schedule hereto, together with an estimate of the net tax benefit/cost of the proposed PILOT Schedule.
EXHIBIT B
