(ii) The Company shall ensure that each Subagent shall observe and comply with the terms and conditions of this Project Agreement.

(iii) **Form ST-60 Not an Exemption Certificate.** The Company acknowledges that the executed Form ST-60 designating the Company or any Subagent as an agent of the Agency shall not serve as a sales or use tax exemption certificate or document. For the purposes of indicating who the purchaser is, each bill or invoice should state,

"I, [NAME OF COMPANY OR SUBAGENT], certify that I am a duly appointed agent of the NASSAU COUNTY INDUSTRIAL DEVELOPMENT AGENCY and that I am purchasing the tangible personal property or services for use in the 83 Harbor, LLC/ Tonsa Automotive Inc., 2019 Project located at 83 Harbor Road, Port Washington, New York in the Village of Port Washington North, Town of North Hempstead, County of Nassau, IDA Project Number **2803-19-04A**".

The Agency hereby grants to the Company exemption from mortgage recording taxes for one or more Mortgages securing an aggregate principal amount not to exceed Maximum Mortgage Principal Amount, or such greater amount as approved by the Agency in its sole and absolute discretion, in connection with the financing of the Project and any future financing,

refinancing or permanent financing of the costs of the Project (the "Mortgage Recording Tax Exemption"). The Company represents and warrants (1) that the real property secured by the Mortgage is located within a transportation district referenced in Section 253(2)(a) of the Tax Law, and (2) that upon recording the Mortgage, the Company shall pay the mortgage recording tax allocated to transportation districts referenced in Section 253(a)(2) of the Tax Law.

Section 4.8      Recapture of Agency Benefits.

(A) It is understood and agreed by the parties hereto that the Agency is entering into this Project Agreement in order to provide financial assistance to the Company for the Facility and to accomplish the public purposes of the Act. In consideration therefor, the Company hereby agrees that if there shall occur a Recapture Event (as defined below) after the date hereof, the Company shall pay to the Agency, or to the State of New York, if so directed by the Agency (except as otherwise specified below) as a return of public benefits conferred by the Agency in an amount as follows (such amount, the "Recapture of Benefits"):

(1) one hundred per cent (100%) of the Benefits (as defined below) if the Recapture Event occurs on or before the tenth (10th) anniversary of the Closing Date;

(2) eighty per cent (80%) of the Benefits if the Recapture Event occurs after the tenth (10th) anniversary of the Closing Date but on or before the twelfth (12th) anniversary of the Closing Date;

(3) sixty per cent (60%) of the Benefits if the Recapture Event occurs after the twelfth (12th) anniversary of the Closing Date but on or before the fourteenth (14th) anniversary of the Closing Date;

(4) forty per cent (40%) of the Benefits if the Recapture Event occurs after the fourteenth (14th) anniversary of the Closing Date but on or before the sixteenth (16th) anniversary of the Closing Date;

(5) twenty per cent (20%) of the Benefits if the Recapture Event occurs after the sixteenth (16th) anniversary of the Closing Date but on or before the eighteenth (18th) anniversary of the Closing Date;

(6) ten per cent (10%) of the Benefits if the Recapture Event occurs after the eighteenth (18th) anniversary of the Closing Date but on or before the twentieth (20th) anniversary of the Closing Date; or

(7) zero per cent (0%) of the Benefits thereafter.

(B) The term "Benefits" shall mean the Agency's calculation of, collectively:

(1) all real estate tax benefits which have accrued to the benefit of the Company during such time as the Agency held an interest in the Project Facility by reason of such interest, such tax benefits to be computed by subtracting the payments in lieu of taxes paid under the PILOT Agreement (through the date that the Project Facility is returned to the tax rolls as taxable property) from those payments which the Company would have

been required to pay through such date had the Company been the owner of the Project Facility and the Agency not been involved in the Project and based on the records of the Nassau County Tax Assessor and any applicable village tax assessor, and treating any negative result as \$0; and

(2) all miscellaneous benefits derived from the Agency's participation in the transactions contemplated by this Lease, including, but not limited to, any exemption from mortgage recording taxes and any exemption from applicable sales and use taxes; provided, however, that the recapture of the value of any exemption from sales and/or use taxes shall be in the full amount of any exemption taken and shall not be subject to the scheduled percentage reduction set forth in Subsection (A) above.

(C) For the purposes of this Section 4.8 the term "Recapture Event" shall mean the occurrence of any of the following events:

(1) The Company shall have liquidated its operations and/or assets; or

(2) The Company shall have ceased all or substantially all of its operations at the Project Facility (whether by closure or by relocation to another facility or otherwise, or whether to another facility either within or outside of the County); or

(6) The Company shall have sold, leased, subleased, sub-subleased, assigned, transferred or otherwise disposed of all or any part of its interest in the Project Facility in violation of this Project Agreement or the Lease Agreement; or

(7) The Company fails to maintain or fails to cause to be maintained the Minimum Employment Requirement at any time during the term of this Project Agreement; or

(8) The Application, or documentation submitted by the Company or any Guarantor in support of the Application, contained a knowingly false or knowingly misleading statement as to any fact material to the Application or knowingly omitted any information which, if included, would have rendered any information in the Application or supporting documentation false or misleading in any material respect, and such false or misleading statement or omission was made knowingly and intentionally for the purpose of obtaining the Financial Assistance.

(9) The Company receives Sales Tax Savings in connection with property or services not authorized by the Agency as part of the Project; or

(10) The Company receives Sales Tax Savings in connection with the Project in excess of the Maximum Sales Tax Exemption; provided, however, that the foregoing shall constitute a Recapture Event with respect to such excess Sales Tax Savings only. It is further provided that failure to repay the Sales Tax Savings within thirty (30) days shall constitute a Recapture Event with respect to all Recapture Benefits; or

(11) Failure of the Company to file a copy of the Form ST-340 with the Agency in compliance with Section 4.5 hereof; or

Notwithstanding the foregoing, a Recapture Event shall not be deemed to have occurred if the Recapture Event shall have arisen as a direct, immediate result of (i) a Condemnation by governmental authority of all or substantially all of the Project Facility or any interest therein, or (ii) the inability at law of the Company to rebuild, repair, restore or replace the Project Facility after the occurrence of a casualty to substantially its condition prior to such casualty, which inability shall have arisen in good faith through no fault on the part of the Company.

(D) The Company covenants and agrees to furnish the Agency with written notification upon the occurrence of any Recapture Event, which notification shall set forth the terms of such Recapture Event as follows: In order to certify and verify the foregoing, the Company shall provide annually, to the Agency, a certified statement and documentation: (i) enumerating the full-time equivalent jobs retained and the full-time equivalent jobs created as a result of the financial assistance, by category, including full-time equivalent independent contractors or employees of independent contractors that work at the project location, (ii) indicating that the salary and fringe benefit averages or ranges for categories of jobs retained and jobs created that was provided in the application for Financial Assistance is still accurate and if it is not still accurate, providing a revised list of salary and fringe benefit averages or ranges for categories of jobs retained and jobs created, and (iii) such other information, as so requested from time to time, to enable the Agency to assess the progress of the Project toward achieving the investment, job retention, job creation, or other objectives of the Project indicated in the Application for Financial Assistance.

(E) In the event any payment owing by the Company under this Section shall not be paid on demand by the Agency, such payment shall bear interest from the date of such demand at an interest rate equal to eighteen percent (18%) per annum or the maximum lawful prevailing rate permitted by Applicable Law, whichever is less until the Company shall have made such payment in full, together with such accrued interest to the date of payment, to the Agency (except as otherwise specified above).

(F) The Agency shall be entitled to deduct all reasonable out of pocket expenses of the Agency, including without limitation, reasonable legal fees, incurred with the recovery of all amounts due under this Section 4.8, from amounts received by the Agency pursuant to this Section 4.8.

In order to entitle the Agency to exercise any remedy reserved to it in this Article VI it shall not be necessary to give any notice, other than such notice as may be herein expressly required in this Project Agreement.

# Summary

The Nassau County Industrial Development Agency (the "Agency") received an application for financial assistance from Tonsa Automotive, Inc. (the "Applicant") for the acquisition of a new building along with related renovation and acquisition of machinery and equipment (the "Project") at 83 Harbor Drive in the Hamlet of Port Washington, Town of North Hempstead, County of Nassau, New York (the "Site"). The Project involves the acquisition of an approximately 5.16-acre site including an 82,037 SF warehouse and 19,623 SF office space all for use by the Applicant as a storage, warehouse, and distribution facility for the Applicant's automotive and truck parts business, with ancillary office space. The Agency commissioned Camoin Associates to conduct an economic and fiscal impact of the Project on Nassau County (the "County").

This study analyzes the impact that the Project will have on the Nassau County economy and on local municipal revenues, net of any economic activity that would occur even if the Project was not completed. Following building acquisition, the Applicant expects to relocate 48 full-time equivalent jobs from their existing Nassau County location at 30 Seaview Boulevard in the Hamlet of Port Washington, Nassau County to the Site. The Applicant states that absent IDA benefits they would consider relocating the employees at the current location to an existing facility outside of the state or a new Midwest location for business reasons. The Applicant also plans to add 6 new jobs within three years following Project completion. Therefore, we consider the 54 jobs (48 existing and 6 new) to be net new to the County. This study analyzes the impact that these net new jobs and related renovation jobs would have on the County economy and on municipal revenue sources.

The following is a summary of our findings from this study, with details below and in the attachments.

Summary of Benefits to County	
<b>Renovation Phase Jobs</b>	<b>7</b>
<b>Renovation Phase On-Site Jobs</b>	<b>4</b>
<b>Renovation Phase Earnings</b>	<b>\$ 592,223</b>
<b>Renovation Phase On-Site Earnings</b>	<b>\$ 405,344</b>
<b>One-Time Sales Tax Revenue to County</b>	<b>\$ 4,405</b>
<b>Annual Jobs</b>	<b>83</b>
<b>On-Site Jobs</b>	<b>54</b>
<b>Annual Earnings</b>	<b>\$ 5,955,120</b>
<b>On-Site Earnings</b>	<b>\$ 3,024,000</b>
<b>Average Annual Sales Tax Revenue to County</b>	<b>\$ 44,291</b>
<b>Average Annual PILOT Payment</b>	<b>\$ 528,357</b>

- The renovation phase of the Project would result in approximately 4 new direct, on-site renovation jobs generating an estimated \$405,000 in direct new earnings on-site. The renovation phase would support an additional 3 indirect jobs and \$187,000 in indirect earnings.
- The operation phase of the Project supports 54 net new jobs in the County. The annual direct earnings associated with the Project is estimated at approximately \$3.0 million on-site and another nearly \$3.0 million in indirect earnings throughout the County.
- Sales associated with the Project would be taxed and contribute to sales tax revenue for the County. Average annual sales tax revenue to the County as a result of the Project will total approximately \$44,000.

- The Applicant has negotiated terms of a proposed PILOT agreement with the Agency, which includes a 20-year PILOT for the property, after which the Applicant would pay tax on the full value of the property. Under this proposed PILOT agreement, the Applicant is expected to pay nearly \$10.6 million during the 20-year PILOT term.

Summary of Costs to County		
Sales Tax Exemption	\$	125,000
Mortgage Tax Exemption	\$	49,800
Loss (Gain) of Property Tax Revenue	\$	399,468
Source: Applicant IDA Application, Camoin Associates		

- Through negotiations with the Agency, the Applicant could have access to a sales tax exemption estimated to be valued at up to \$125,000, and a mortgage tax exemption valued at up to \$49,800. However, if we assume that the Project would not occur absent IDA benefits, this figure is not actually a "cost" to the affected tax jurisdictions since no future revenue stream would exist without support from the Agency.
- The schedule of payments to be made by the Applicant under the draft PILOT agreement would be \$399,468 less than the property tax payments generated by the Site if the Project were not to occur. In other words, the PILOT represents a cost to the affected taxing jurisdictions averaging \$19,973 per year.

# Economic Impact Analysis

The estimates of direct economic activity generated during the renovation phase and on-site employment during the occupational phase as provided by the Applicant were used as the direct inputs for the economic impact model. Camoin Associates used the input-output model designed by Economic Modeling Specialist International (EMSI) to calculate total economic impacts. EMSI allows the analyst to input the amount of new direct economic activity (spending or jobs) occurring within the County and uses the direct inputs to estimate the spillover effects that the net new spending or jobs have as these new dollars circulate through the Nassau County economy. This is captured in the indirect impacts and is commonly referred to as the "multiplier effect." See Attachment A for more information on economic impact analysis.

## Renovation Phase Impacts

The Applicant anticipates that the private sector investment in the renovation of the Project would cost nearly \$2.0 million.<sup>1</sup> All of this cost represents private sector investment generated by the Project. If we assume that 54%<sup>2</sup> of the renovation spending would be sourced from within the County, we can project that there will be nearly \$1.1 million in net new spending in the County associated with the renovation phase.

Renovation Phase Spending	
<b>Total Renovation Cost</b>	<b>\$ 1,984,000</b>
<b>Percent Sourced from County</b>	<b>54%</b>
<b>Net New Renovation Spending</b>	<b>\$ 1,071,360</b>

Source: Applicant, Camoin Associates

Based on \$1,071,360 worth of net new direct spending associated with the renovation phase of the Project, Camoin Associates determines that there would be a total of over \$1.6 million in one-time renovation related spending supporting 7 jobs throughout the County and over \$592,000 in earnings.

	Direct		Indirect		Total
<b>Jobs</b>		<b>4</b>		<b>3</b>	<b>7</b>
<b>Earnings</b>	<b>\$</b>	<b>405,344</b>	<b>\$</b>	<b>186,879</b>	<b>\$ 592,223</b>

Based solely on information in the application and the expected first use of the Project in July 2019, as estimated by the Applicant, should allow the Agency to reach the conclusion that there is a likelihood of

<sup>2</sup> The Applicant stated that their contractor could not provide information about the sources for materials at this time. The Applicant has stated that to the extent that it is cost competitive, the Applicant will obtain the majority of its materials from Nassau County. We have assumed that 50% of the total materials cost, being \$1,179,500 will be sourced from within the County. The Applicant expects 65% of total labor costs, being \$504,500, to be sourced from Nassau County.

accomplishing the project in a timely manner. Although we are not renovation experts, nothing has come to our attention that would cause us to reach a contrary conclusion.

## Impacts of On-Site Employment

The table below outlines the impact that the jobs employed on-site as a result of the Project would have on Nassau County in terms of direct, indirect, and total employment and wages. During current operations, the Applicant employs approximately 48 employees at 30 Seaview Boulevard in the Hamlet of Port Washington, Nassau County, New York.<sup>3</sup> The Applicant is considering relocating these positions to locations outside of the County absent IDA assistance. The Project would relocate these positions on-site and retain them within the County. Additionally, the Applicant will add an additional 6 positions on-site following project completion. Therefore, 54 jobs are considered to be net new to the County.

Annual Economic Impact - Occupation Phase					
	Direct		Indirect		Total
<b>Jobs</b>		<b>54</b>		<b>29</b>	<b>83</b>
<b>Earnings</b>	<b>\$</b>	<b>3,024,000</b>	<b>\$</b>	<b>2,931,120</b>	<b>\$ 5,955,120</b>
<b>Sales</b>	<b>\$</b>	<b>24,002,053</b>	<b>\$</b>	<b>8,582,089</b>	<b>\$ 32,584,142</b>

Source: EMSI, Camoin Associates

As shown in the table above, the Applicant anticipates that 54 net new jobs with an annual payroll of over \$3.0 million will be on-site within three years following acquisition and renovation of the Project. Taking into account the additional indirect and induced economic impacts on Nassau County from those direct jobs, total employment created by the project is estimated at 83 jobs and nearly \$6.0 million in annual earnings. As a result, the project would generate nearly \$32.6 million in total sales.

<sup>3</sup> According to Part I of the application.

# Fiscal Impact Analysis

In addition to the economic impact of the Project on the local economy (outlined above), there would also be a fiscal impact in terms of annual property tax and sales tax generation. The following section of the analysis outlines the impact of the completion of the Project on the local taxing jurisdictions in terms of the cost and/or benefit to municipal budgets.

## Payment in Lieu of Taxes (PILOT)

The Applicant has applied to the Agency for a Payment In Lieu of Taxes (PILOT) agreement for the Project. The Applicant has proposed a 20-year payment schedule for the PILOT agreement. Based on the terms of the PILOT as proposed, Camoin Associates calculated the potential payments associated with the PILOT agreement:

## Tax Policy Comparison

Without financial assistance from the Agency, Camoin Associates assumes that the Applicant would not undertake the Project. Based on the current taxable value of the Site and an assumed annual increase to the rate of 2.00%<sup>1</sup> (holding taxable value constant), the following table outlines the estimated tax payments made by the building owner without the project.

Tax Payment Without Project

<sup>1</sup> The tax rate is increased by 2.00% annually, the maximum inflation factor that can be reasonably anticipated into the future. New York State property tax cap legislation limits tax levy growth to an inflation factor set by the State or 2.00%, whichever is less, the amount by which a government entity may increase its annual tax levy (certain exceptions apply). Although in recent years the inflation factor has been less than 2.00%, using 2.00% for the purposes of comparing future otherwise applicable property tax payments without the Project to the proposed PILOT schedule provides a conservative estimate of the Project's benefit/cost to the County.

The table below calculates the benefit (or cost) to the affected taxing jurisdictions as the difference between the PILOT payments associated with the Project and the property tax payments without the Project. In year one of the PILOT, payments are equal to what the property tax would be without the Project. Over the course of the proposed PILOT term, the average annual collection by local jurisdictions would be \$19,973 less in PILOT revenue than property taxes without the Project. The total cost to the affected taxing jurisdictions of the PILOT agreement over 20 years would be \$399,468.

## Other Exemptions

The PILOT program would offer the Applicant savings in terms of property tax benefits, but there are other benefits to working with the Agency including a mortgage tax exemption and a sales tax exemption on renovation materials and furniture, fixtures, and equipment.

Summary of Costs to County		
Sales Tax Exemption	\$	125,000
Mortgage Tax Exemption	\$	49,800
Loss (Gain) of Property Tax Revenue	\$	399,468

Source: Applicant IDA Application, Camoin Associates

The additional incentives offered by the Agency would benefit the Applicant but would not negatively affect the County because, without the Project, the County by definition would not be receiving any associated revenue.

## Sales Tax Revenue - Renovation Phase

The one-time renovation phase earnings described by the total economic impact of the renovation work (described in above section) would lead to additional sales tax revenue for the County. It is assumed that 70%<sup>5</sup> of the renovation phase earnings would be spent within Nassau County and that 25% of those purchases would be taxable.

One-Time County Sales Tax Revenue Renovation Phase		
Total New Earnings	\$	592,223
Amount Spent in County (70%)	\$	414,556
Amount Taxable (25%)	\$	103,639
County Sales Tax Rate		4.25%
New County Tax Revenue	\$	4,405

Source: Nassau County, Camoin Associates

As a result of the renovation phase employment, the County would receive approximately \$4,405 in new sales tax revenue from the economic impacts of the renovation of the Project.

<sup>5</sup> A retail leakage analysis of Nassau County suggests that a vast majority of the goods and services that employees will be purchasing are available within the county (food, clothing, vehicles, computers, etc.), but there still will be some outside spending on travel and through purchases made online and in neighboring counties. Based on third party proprietary retail spending data, 70% is a reasonable assumption for the amount of in-county spending. (Source: ESRI Business Analysis Online Retail Market Profile)

## Sales Tax Revenue – Employee Earnings

The additional earnings described by the total economic impact of the ongoing occupation (see the previous section) would lead to additional sales tax revenue for the County. It is assumed that 70%<sup>5</sup> of the earnings would be spent within Nassau County and that 25% of those purchases would be taxable.

Annual County Sales Tax Revenue Employee Earnings	
Total New Earnings	\$ 5,955,120
Amount Spent in County (70%)	\$ 4,168,584
Amount Taxable (25%)	\$ 1,042,146
County Sales Tax Rate	4.25%
<b>New County Tax Revenue</b>	<b>\$ 44,291</b>

Source: Nassau County, Camoin Associates

Under these assumptions, the County would receive approximately \$44,291 each year in new tax revenue from the economic impacts of the Project.

## What is economic impact analysis?

The purpose of conducting an economic impact study is to ascertain the total cumulative changes in employment, earnings and output in a given economy due to some initial "change in final demand". To understand the meaning of "change in final demand", consider the installation of a new widget manufacturer in Anytown, USA. The widget manufacturer sells \$1 million worth of its widgets per year exclusively to consumers in Canada. Therefore, the annual change in final demand in the United States is \$1 million because dollars are flowing in from outside the United States and are therefore "new" dollars in the economy.

This change in final demand translates into the first round of buying and selling that occurs in an economy. For example, the widget manufacturer must buy its inputs of production (electricity, steel, etc.), must lease or purchase property and pay its workers. This first round is commonly referred to as the "Direct Effects" of the change in final demand and is the basis of additional rounds of buying and selling described below.

To continue this example, the widget manufacturer's vendors (the supplier of electricity and the supplier of steel) will enjoy additional output (i.e. sales) that will sustain their businesses and cause them to make additional purchases in the economy. The steel producer will need more pig iron and the electric company will purchase additional power from generation entities. In this second round, some of those additional purchases will be made in the US economy and some will "leak out". What remains will cause a third round (with leakage) and a fourth (and so on) in ever-diminishing rounds of spending. These sets of industry-to-industry purchases are referred to as the "Indirect Effects" of the change in final demand.

Finally, the widget manufacturer has employees who will naturally spend their wages. As with the Indirect Effects, the wages spent will either be for local goods and services or will "leak" out of the economy. The purchases of local goods and services will then stimulate other local economic activity; such effects are referred to as the "Induced Effects" of the change in final demand.

Therefore, the total economic impact resulting from the new widget manufacturer is the initial \$1 million of new money (i.e. Direct Effects) flowing in the US economy, plus the Indirect Effects and the Induced Effects. The ratio between Direct Effects and Total Effects (the sum of Indirect and Induced Effects) is called the "multiplier effect" and is often reported as a dollar-of-impact per dollar-of-change. Therefore, a multiplier of 2.4 means that for every dollar (\$1) of change in final demand, an additional \$1.40 of indirect and induced economic activity occurs for a total of \$2.40.

Key information for the reader to retain is that this type of analysis requires rigorous and careful consideration of the geography selected (i.e. how the "local economy" is defined) and the implications of the geography on the computation of the change in final demand. If this analysis wanted to consider the impact of the widget manufacturer on the entire North American continent, it would have to conclude that the change in final demand is zero and therefore the economic impact is zero. This is because the \$1 million of widgets being purchased by Canadians is not causing total North American demand to increase by \$1 million. Presumably, those Canadian purchasers will have \$1 million less to spend on other items and the effects of additional widget production will be cancelled out by a commensurate reduction in the purchases of other goods and services.

Changes in final demand, and therefore Direct Effects, can occur in a number of circumstances. The above example is easiest to understand: the effect of a manufacturer producing locally but selling globally. If, however, 100% of domestic demand for a good is being met by foreign suppliers (say, DVD players being imported into the US from Korea and Japan), locating a manufacturer of DVD players in the US will cause a change in final demand because all of those dollars currently leaving the US economy will instead remain. A situation can be envisioned whereby a producer is serving both local and foreign demand, and an impact analysis would have to be careful in calculating how many "new" dollars the producer would be causing to occur domestically.

## Instructions

### When to file

An IDA must file this form within 30 days of the date they appoint any project operator or other person as agent of the IDA, for purposes of extending any sales and use tax exemptions.

### Requirements to file

The IDA must file a separate form for each person it appoints as agent, whether directly or indirectly, and regardless of whether the person is the primary project operator or agent. If the IDA authorizes a project operator or agent to appoint other persons as agent of the IDA, the operator or agent making such an appointment must advise the IDA that it has done so, so that the IDA can file a form within 30 days of the date of the new agent's appointment. The IDA should not file this form for a person hired to work on an IDA project if that person is not appointed as agent of the IDA. The IDA should not file this form if they do not extend any sales or use tax exemption benefits for the project.

If an IDA modifies a project, such as by extending it beyond its original completion date, or by increasing or decreasing the amount of sales and use tax exemption benefits authorized for the project, they must, within 30 days of the change, file a new form with the new information.

### If the information on this form changes

If an IDA amends, revokes, or cancels the appointment of an agent, or if an agent's appointment becomes invalid for any reason, the IDA, within 30 days, must send a letter to the address below for filing this form, indicating that the appointment has been amended, revoked, or cancelled, or is no longer valid, and the effective date of the change. They must attach to the letter a copy of the form it originally filed. The IDA should not send a letter for a form that is not valid merely because the *Completion date of project* has passed.

## Instructions

### To the purchaser

You may use Form ST-123 if you

- have been appointed as an agent or project operator by an industrial development agency (IDA) and
- the purchases qualify for exemption from sales and use tax as described in the IDA contract.

You may use Form ST-123 as a single-purchase certificate or as a blanket certificate covering the first and subsequent purchases qualifying for the project listed.

**Agent or project operator sales tax ID number** — If you are registered with the Tax Department for sales tax purposes, you must enter your sales tax identification number on this certificate. If you are not required to be registered, enter *N/A*.

*Industrial development agencies and authorities (IDAs)* are public benefit corporations under General Municipal Law Article 18-A and the Public Authorities Law, for the purpose of promoting, developing, encouraging, and assisting in the acquisition, construction, reconstruction, improvement, maintenance, equipping, and furnishing of industrial, manufacturing, warehousing, commercial, research, and recreational facilities in New York State.

IDAs are exempt from the payment of sales and use tax on their purchases, in accordance with Tax Law section 1116(a)(1). However, IDAs do not normally make direct purchases for projects. Commonly, IDAs instead appoint a business enterprise or developer, contractor, or subcontractor as its agent or project operator. Such purchases made by the agent or project operator, acting within the authority granted by the IDA, are deemed to be made by the IDA and therefore exempt from tax.

*Example 1: IDA agreement with its agent or project operator states that contractor X may make all purchases of materials and equipment necessary for completion of the project, as agent for the IDA. Contractor X rents a backhoe and a bulldozer for site preparation, purchases concrete and lumber to construct a building, and purchases machinery to be installed in the building. All these purchases by contractor X as agent of the IDA are exempt from tax.*

*Example 2: IDA agreement with its agent or project operator states that contractor X may make all purchases of materials and equipment to be incorporated into the project, as agent for the IDA. Contractor X makes the same purchases as in Example 1. Since the concrete, lumber, and machinery will actually be incorporated into the project, contractor X may purchase these items exempt from tax. However, rental of the backhoe and bulldozer is not exempt since these transactions are normally taxable and the IDA agreement does not authorize contractor X to make such rentals as agent of the IDA.*

A contractor or subcontractor not appointed as agent or project operator of an IDA must present suppliers with Form ST-120.1, *Contractor Exempt Purchase Certificate*, when making purchases that are ordinarily exempt from tax in accordance with Tax Law sections 1115(a)(15) and 1115(a)(16). For more information, see Form ST-120.1.

### Exempt purchases

To qualify, the purchases must be made within the authority granted by the IDA and used to complete the project (not to operate the completed project).

- Mark box A to indicate you are purchasing tangible personal property and services (other than utility services and motor vehicles or tangible personal property installed in a qualifying motor vehicle) exempt from tax.
- Mark box B to indicate you are purchasing certain consumer utility services used in completing the project exempt from tax. This includes gas, electricity, refrigeration, and steam, and gas, electric, refrigeration, and steam services.
- Mark box C to indicate you are purchasing a motor vehicle or tangible personal property related to a qualifying motor vehicle exempt from tax.

### Misuse of this certificate

Misuse of this exemption certificate may subject you to serious civil and criminal sanctions in addition to the payment of any tax and interest due. These include:

- A penalty equal to 100% of the tax due;
- A \$50 penalty for each fraudulent exemption certificate issued;
- Criminal felony prosecution, punishable by a substantial fine and a possible jail sentence; and
- Revocation of your *Certificate of Authority*, if you are required to be registered as a vendor. See TSB-M-09(17)S, *Amendments that Encourage Compliance with the Tax Law and Enhance the Tax Department's Enforcement Ability*, for more information.

### To the seller

When making purchases as agent or project operator of an IDA, the purchaser must provide you with this exemption certificate with all entries completed to establish the right to the exemption. You **must** identify the project on each bill and invoice for such purchases and indicate on the bill or invoice that the IDA or agent or project operator of the IDA was the purchaser.

As a New York State registered vendor, you may accept an exemption certificate in lieu of collecting tax and be protected from liability for the tax if the certificate is valid. The certificate will be considered valid if it is

- accepted in good faith;
- in your possession within 90 days of the transaction; and
- properly completed (all required entries were made)

An exemption certificate is accepted in good faith when you have no knowledge that the exemption certificate is false or is fraudulently given, and you exercise reasonable ordinary due care. If you do not receive a properly completed certificate within 90 days after the delivery of the property or service, you will share with the purchaser the burden of proving the sale was exempt.

You must also maintain a method of associating an invoice (or other source document) for an exempt sale with the exemption certificate you have on file from the purchaser. You must keep this certificate at least three years after the due date of your sales tax return to which it relates, or the date the return was filed, if later.

## Instructions

### General information

#### Who must file

The General Municipal Law (GML) and the Public Authorities Law require the agent/project operator (also known as the *project occupant*) of an Industrial Development Agency or Authority (IDA) to file an annual report with the Tax Department. The agent/project operator required to file this report is the person **directly** appointed by the IDA to act for and to represent the IDA for the project. The agent/project operator is ordinarily the one for whom the IDA project was created.

There is usually only one agent/project operator directly appointed by the IDA for an IDA project. However, if the IDA directly appoints multiple agents/project operators, each agent/project operator must file this form (unless they are related corporations).

Only the agent/project operators directly appointed by the IDA must file Form ST-340. Contractors, subcontractors, consultants, or agents appointed by the agent/project operators should **not** themselves file Form ST-340. However, the agent/project operators must include on Form ST-340 information obtained from such contractors, subcontractors, consultants, and agents, as described below.

#### What you must report

The report must show the **total value** of all state and local **sales and use taxes exempted** during the calendar year, as a result of the project's designation as an IDA project. This includes:

- the value of the exemptions the agent/project operator (you) obtained; and
- the value of the exemptions obtained by your contractors, subcontractors, consultants, and others, whether or not appointed as agents of the IDA.

Include only the **total combined** exemptions obtained by the above people. A breakdown of the total is not required. However, since the report must include the value of the exemptions they obtained, you must keep records of the amounts others report to you.

You must make it clear to the contractors, subcontractors, consultants, and others that they must keep accurate tax information and have it available, so that you can comply with the annual reporting requirements.

Do not include on this report the amount of any sales and use tax exemptions from other provisions of the Tax Law (for example, manufacturer's production equipment exemption, research and development exemption, or contractor's exemption for tangible personal property incorporated into a project of an exempt organization).

#### When the report is due

You must file Form ST-340 on a calendar-year basis. It is due by the last day of February of the following year. The reporting requirement applies to IDA projects started on or after July 21, 1993.

#### Project information

At the top of the form, identify the reporting period by entering the year in the space provided. If an address is required, always include the ZIP code.

**Name of IDA agent/project operator:** Enter your name, address, employer identification number (EIN), and telephone number.

**Name of IDA and IDA project number:** Enter the name and address of the IDA. If more than one IDA is involved in a particular project, you must file a separate report for the tax exemptions attributable to each IDA. Also enter the ID project number.

**Name of project:** Enter the name of the project and the address of the project site. If you are involved in more than one project, you

must file a separate report for each project, even if authorized by the same IDA.

**Date project began:** Enter the date the project started (this means the earliest of the date of any bond or inducement resolution, the execution of any lease, or any bond issuance). Include month, day, and year.

**Completion date of project:** Enter the date installation, lease, or rental of property (for example, machinery or computers) on the project ended, or the date the project is expected to be completed. Mark an **X** in the appropriate box to indicate if the date entered is actual or expected.

**Total sales and use tax exemptions:** Enter the total amount of New York State and local sales and use taxes exempted during the reporting period as a result of the project's receipt of IDA financial assistance (*if none, enter 0*). This includes exemptions obtained at the time of purchase, as well as through a refund or credit of tax paid. Include the sales and use taxes exempted on purchases of property or services incorporated into or used on the exempt project. This includes the taxes exempted on purchases made by or on behalf of the agent/project operator, the general contractor for the project, and any subcontractors, consultants, or others. Do **not** enter total purchases.

### Representative information

If applicable, enter the name, address, title (for example, attorney or accountant), and telephone number of the individual you authorize to submit this report. This section is not required.
