WHEREAS, pursuant to SEQRA, to aid the Agency in determining whether the Project may have a significant adverse impact upon the environment, the Agency has completed, received and/or reviewed (1) Part 1 of a Full Environmental Assessment Form (“EAF”), dated December 13, 2021, prepared by R&M Engineering by Christopher W. Robinson, P.E.; (2) NYSDEC’s Environmental Resource Mapper; (3) New York State Historic Preservation Office’s Cultural Resources Mapper; and (4) other relevant environmental information (collectively, 1, 2, 3 and 4 shall be referred to as the “Environmental Information”); and

WHEREAS, pursuant to SEQRA, the Agency is an involved agency in the SEQRA review of the Project, and as an involved agency is required to analyze the Project to determine whether it has the potential to have a significant adverse impact on the environment; and

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NASSAU COUNTY INDUSTRIAL DEVELOPMENT AGENCY AS FOLLOWS:

Section 1. Based upon a thorough review and examination of the Environmental Information and upon the Agency’s knowledge of the area surrounding the Land and such further investigation of the Project and its environmental effects as the Agency has deemed appropriate, the Agency makes the following findings with respect to the Project:

1. Impact on Land. . The Project consists of the demolition of an existing building and improvements and construction of a warehouse/distribution facility for leasing to one (1) or more tenants, together with surface parking. The zoning and land use classification will not change as a result of the Project. The Project is consistent with surrounding uses, which are primarily commercial / industrial in nature, within an industrial complex. Accordingly, the Project is not anticipated to create any potentially significant adverse impacts to land resources or land use.
2. Impact on Water. No wetlands in the area of the existing building abut the Land nor are contained thereon. In addition, the Project is not located in a designated 100 year or 500 year floodplain. The Land has been previously disturbed and the improvements will not physically alter, or encroach into, any existing wetland or waterbody. Although the Project site is located over the Nassau-Suffolk sole source aquifer, no activities proposed for the Project are anticipated to impact groundwater or the aquifer, nor is construction or operation of such project anticipated to expose such aquifer to the undue threat of contamination. Further, in terms of stormwater impacts and drainage, the Project will be constructed in accordance with applicable standards, including the contractor obtaining permits from the NYSDEC under the State Pollutant Discharge Elimination System permit program and implementing measures required under it, such as a Storm Water Pollution Prevention Plan.
3. Impact on Air. The Project will not be a significant source of air emissions. The Project does not entail the types of activities or operations that require the Applicant to acquire an Air Facility Permit or that are associated with a significant potential for air emissions. In addition, any increase in traffic including vehicle trips associated with the Project is not anticipated to materially impact air quality as more specifically discussed in the Transportation section below, including based on various analyses completed regarding

traffic. Any potential impact on air as a result of construction activities will be minor and temporary in nature.

4. Impact on Health or Safety. The EAF advises that the property and adjacent parcels are not within the New York State Department of Environmental Conservation (NYSDEC) remedial database and do not contain hazardous waste. While the EAF discloses that the Land was the subject of four (4) spills with the following assigned NYSDEC Spill Numbers 8807589, 8900530, 8906974 and 9512379. Spill Number 8807589 was the result of a gasoline tank test failure that occurred on December 15, 1988, which Spill Number was closed by the NYSDEC on December 12, 1988 as no further action was required. Spill Number 8900530 was a spill of approximately 25 gallons of gasoline resulting from human error that occurred on April 17, 1989, which Spill Number was closed by the NYSDEC on August 14, 1990 as no further action was required. Spill Number 8906974 was a spill of approximately 1 gallon of gasoline resulting from an equipment failure that occurred on October 16, 1989, which Spill Number was closed by the NYSDEC on October 17, 1989 as no further action was required. Spill Number 9512379 was a spill of unknown amount of gasoline into soil at the Property that occurred on January 3, 1996, which Spill Number was closed by the NYSDEC on July 10, 1996 as no further action was required. The Project also does not entail the types of activities or operations that are associated with a significant potential for affecting public health. Accordingly, the Project will not create any significant adverse impact to public health, air, land or water resources.
5. Impact on Plants and Animals Including to Threatened or Endangered Species. The Land in the area of the Project does not appear to contain any habitats of significance as it is located in a well-developed industrial and commercial area. The NYSDEC Mapper indicates that the property where such project is to be developed does not contain a species of animal, or associated habitat listed as threatened or endangered. The Proposed Action does not present the potential for removal or destruction of large quantities of vegetation or fauna; substantial interference with the movement of any resident or migratory fish or wildlife species; impacts on a significant habitat area; substantial adverse impacts on a threatened or endangered species of animal or plant, or the habitat of such a species; or other significant adverse impacts to natural resources.
6. Impact on Agricultural Land Resources. The Project is located in an area currently devoted to commercial / industrial uses. As a result it will not involve the conversion or loss of agricultural land resources. Accordingly, the Project will not create any significant adverse impacts to agricultural land resources.
7. Impact on Aesthetic Resources. The Project will not be visible from any officially designated federal, state or local scenic or aesthetic resource. The property is situated in a developed commercial and industrial area, as indicated with is zoned for uses consistent with the Project with is also consistent with surrounding uses. As the proposed Project is for a warehouse/distribution facility for leasing to one (1) or more tenants, which is consistent with its surroundings, and the Project Facility will be constructed pursuant to plans approved by the Town of Oyster Bay, it is not anticipated to create any significant adverse impacts to aesthetic resources.
8. Impact on Historic and Archeological Resources. The property on which the Project is to be located does not contain, nor is it adjacent to, a building, structure or archeological site designated by the NYS Historic Preservation Office as a resource, nor is it located within a district which is listed on, or that has been nominated to, the State or National Register

of Historic Places. Areas near the property on which the Project is to be located have been previously developed and lack the characteristics that would suggest the potential presence of any significant archaeological resources. Accordingly, the Project will not create any significant adverse impacts to historical or archaeological resources.

9. Impact on Open Space and Recreation. The Land on which the Project is to be located and adjacent areas around it do not comprise public open space as it was devoted to commercial and industrial uses. Further, the density of the Project Facility is not anticipated to create an adverse impact of local parkland. Accordingly, the Project will not create any significant adverse impacts to open space or recreational resources.
10. Impact on Critical Environmental Areas. The Land on which the Project is to be developed is not located in or substantially contiguous to any Critical Environmental Area (“CEA”) based on a review of the EAF. Accordingly, the Project will not create any significant adverse impacts to any CEA.
11. Impact on Transportation. Based on the EAF prepared by a professional engineer, the Project will not result in a substantial increase in traffic above capacity of current traffic infrastructure, nor is it expected to generate substantial new demand for transportation facilities or services/infrastructure. Further, anticipated truck traffic associated with the operation of the Project is also not anticipated to result in significant negative effects. Any impacts to transportation from construction activities associated with the Project will be minor and temporary in nature. Accordingly, it is not anticipated that that Project will create any significant adverse impacts to transportation.
12. Impact on Energy. Based on the EAF, the Project will result in an increase in energy usage, however, existing utilities serve the area where the Project will be developed and are anticipated to have adequate capacity to serve it. As a result, the Project will not create any significant adverse impacts to energy.
13. Impact on Noise and Odor and Impacts from Light. The Project is not expected to materially increase ambient noise levels or to create odors of consequence particularly in light of such project setting including the Project site location. As a result, it is not anticipated that operation of the Project will result in undue noise impacts. Further, any impacts to noise and/or odor from construction activities will be minor, given the neighboring uses, and temporary in nature. In addition, any such noise from construction will be undertaken during work hours and as such is not anticipated to be significant. Accordingly, the Project will not create any significant adverse impacts to noise or odors.
14. Impact on Growth and Character of the Community and Neighborhood. The Project is not anticipated to result in significant growth out of character or beyond the capacity of the area to accommodate same in light of the zoning of the site of said project and surrounding uses. In sum, the Project is similar and is in character with surrounding uses. Accordingly, the Project is not anticipated to create any significant adverse impacts to the growth or character of the community.

NOW THEREFORE BE IT FURTHER RESOLVED:

Section 2. Based on the foregoing, the Agency finds that the Project will not have any significant adverse impact on the environment in accordance with the New York State Environmental Quality Review Act, Article 8 of the New York Environmental Conservation Law and, in particular, pursuant to the criteria set forth at 6 NYCRR §617.7(b)-(c) of the SEQRA regulations and as such, no

environmental impact statement shall be prepared. This determination constitutes a negative declaration for the purposes of SEQRA.

Section 3. The Chairman, the Vice Chairman, the Executive Director and the Administrative Director of the Agency are hereby further authorized on behalf of the Agency, or acting together or individually, to distribute copies of this Resolution to the Applicant and to do such further things or perform such acts as may be necessary or convenient to implement the provisions of this Resolution.

The meeting of the Agency will be open to the public. Notices were also provided with respect to the Agency considering this matter on November 28, 2022, with a corrected notice sent on November 29, 2022, the Agency, however, removed the matter from the December 15, 2022 hearing agendas and will, now, consider the "financial assistance" on January 26, 2023.

At the meeting of the Agency, the Agency will consider the application of RG CROSSWAYS OWNER LLC, a limited liability company organized and existing under the laws of the State of Delaware and qualified to do business in the State of New York, together with entities formed or to be formed on its behalf (collectively, the "Applicant"), have presented an application for financial assistance (the "Application") to the Agency, which Application requests that the Agency consider undertaking a project (the "Project") consisting of the following: A)(1) the acquisition of an approximately 8.94 acre parcel of land located at 1 Media Crossways / 200 Crossways Park Drive W., Woodbury, Town of Oyster Bay, Nassau County, New York (Section 15; Block: 196; Lots: 15, 17 and 23) (the "Land"), (2) the construction of a new building totaling approximately 145,200 square feet (the "Building"), on the Land, together with related improvements to the Land, including surface parking spaces, and (3) the acquisition of certain furniture, fixtures, machinery and equipment (the "Equipment") necessary for the completion thereof (collectively, the "Project Facility"), all of the foregoing for use by the Applicant for a warehouse/distribution facility for leasing to one (1) or more tenants, together with surface parking; (B) the granting of certain "financial assistance" (within the meaning of Section 854(14) of the General Municipal Law) with respect to the foregoing in the form of potential exemptions or partial exemptions from real property taxes, mortgage recording taxes and sales and use taxes (collectively, the "Financial Assistance"); and (C) the lease (with an obligation to purchase), license or sale of the Project Facility to the Applicant or such other entity as may be designated by the Applicant and agreed upon by the Agency.

The Application states that the Applicant is seeking an abatement of real property taxes. However, based upon preliminary negotiations between representatives of the Applicant and the Agency, the parties contemplate that the Agency may agree to grant a real property tax exemption (the "Property Tax Exemption") with respect to the Project Facility as follows:

- (i) for the period commencing on the date of the closing of the Project transaction (the "Closing Date") to and including the day prior to the Effective Date (as defined below), payments shall be equal to one hundred percent (100%) of the real property taxes and assessments that would be levied annually upon the Land and the improvements thereon, if any, existing as of the Closing Date without taking into consideration the transfer of ownership, jurisdiction, supervision or control of the Project Facility to the Agency; and
- (ii) for the period commencing on the Effective Date and continuing for twenty (20) full fiscal tax years thereafter, fixed payments equal to the sum of the BASE PILOT and the IMPROVEMENT PILOT shown on Exhibit A hereto.

Thereafter, and through the end of the term of the project agreement, lease or installment sale agreement with respect to the Project Facility, the payments would be equal to the real property taxes and assessments that would be payable as if the Project Facility were returned to the tax rolls as taxable property and subject to taxation at its then current, full assessed value, as the same may be reassessed from time to time, and subject to tax rate increases imposed by the affected tax jurisdictions.

For the purposes of the foregoing, the following terms shall have the following meanings:

- (a) "BASE PILOT" shall be deemed to mean the amount of all real property taxes and assessments payable on the Land and the improvements thereon, if any, existing as of the Closing Date, which amount shall be increased by 2.00% per year (compounded) after the first (1st) fiscal tax

year. Except as set forth in the immediately preceding sentence, the BASE PILOT shall not increase or decrease during the term of the PILOT Agreement. The BASE PILOT shall be reduced by any special taxes, assessments or levies that the Applicant is required to pay separately to the affected tax jurisdictions. In calculating the Base PILOT, the Agency shall take into account the most recent assessment data (i.e., assessed value and tax rates) available as of the Closing Date including any applicable approved tax certiorari stipulation or other settlement or arrangement with the applicable tax assessor(s).

(b) "IMPROVEMENT PILOT" shall be deemed to mean the product of the following amounts, as determined by the Agency: (i) the Assessed Value of the Improvement, (ii) the PILOT Rate, and (iii) the number 0.01, as phased in and adjusted pursuant to Exhibit A attached hereto. The term "Assessed Value of the Improvement" shall be deemed to mean the product of (y) the fair market value of the Project Facility (less the market value used in the calculation of the BASE PILOT) for real property tax valuation purposes, computed as of the estimated date of completion, as determined by the Agency using a methodology reasonably selected by the Agency, and (z) the level of assessment used by the Nassau County Assessor as of the year in which the Closing Date occurs. The PILOT Rate shall be evidenced by School Tax Bills, Village Tax Bills, if any and General Tax Bills based on the most recent assessment data available to the Agency as of the year in which the Closing Date occurs. The IMPROVEMENT PILOT shall be reduced by any special taxes, assessments or levies that the Applicant is required to pay separately to the affected tax jurisdictions.

(c) "Effective Date" shall be deemed to mean for each affected tax jurisdiction the first day of the first fiscal tax year following the first taxable status date occurring subsequent to the last to occur of (i) the Agency acquiring an interest in the Project Facility, (ii) the filing by the Agency of the appropriate application for tax exemption with the Nassau County Tax Assessor, and (iii) the acceptance of such Application by such assessor.

The Property Tax Exemption, if approved by the Agency, would constitute a deviation from the Policy.

The reason for the deviation is that the Property Tax Exemption, if approved by the Agency, is necessary to induce the Applicant to undertake the Project and that the PILOT payments would not be lower than the real property taxes that should otherwise apply with respect to the Land and the improvements thereon, if any, existing as of the Closing Date.

Sincerely,

NASSAU COUNTY INDUSTRIAL
DEVELOPMENT AGENCY

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NASSAU COUNTY INDUSTRIAL DEVELOPMENT AGENCY AS FOLLOWS:

Section 1. The Agency has reviewed the Application and the Report and, based upon the representations made by the Applicant to the Agency and the facts and information obtained by the Staff of the Agency and reported to and reviewed by the members of the Agency at this meeting (including, without limitation, the facts and information set forth in the Staff Review of the Application), the Agency has reviewed and assessed all material information necessary to afford a reasonable basis for the Agency to make a determination to approve the Financial Assistance. In addition, the Agency makes the following findings and determinations with respect to the Project:

(a) based on the proposed use of the Project Facility as set forth in the Application, the economic effects of the Project on the area in which it is situated including the prevention of economic deterioration, the job opportunities to be created and/or maintained by the Project, the Project will constitute a commercial facility and, therefore, the Project constitutes a “project” within the meaning of the Act;

(b) the granting of the Financial Assistance by the Agency to the Applicants is necessary to induce the Applicants to proceed with the Project;

(c) there is a likelihood that the Project would not be undertaken but for the granting of the Financial Assistance by the Agency to the Applicants;

(d) the completion of the Project Facility by the Applicants as agent of the Agency, the lease thereof by the Agency to the Applicants and the operation thereof

by the Applicants will not result in the removal of a facility or plant of the Applicants or any other proposed user, occupant or tenant of the Project Facility from one area of the State of New York (the "State") to another area of the State or in the abandonment of one or more plants or facilities of the Applicants or any other proposed user, occupant or tenant of the Project Facility located within the State (but outside of Nassau County). Therefore, the provisions of subdivision (1) of Section 862 of the Act are not and will not be violated as a result of the granting of the Financial Assistance by the Agency to the Applicants;

(e) the Project will serve the public purposes of the Act by preserving permanent, private sector jobs and increasing the overall number of permanent, private sector jobs in the State;

(f) no funds of the Agency shall be used in connection with the Project for the purpose of preventing the establishment of an industrial or manufacturing plant, nor shall any funds of the Agency be given in connection with the Project to any group or organization which is attempting to prevent the establishment of an industrial or manufacturing plant within the State, nor shall any funds of the Agency be used for advertising or promotional materials which depict elected or appointed government officials in either print or electronic media;

(g) taking into account the stated purposes of the Act being the promotion of employment opportunities and the prevention of economic deterioration and having reviewed the Economic Impact Study prepared by Camoin Associates for the Agency regarding the costs benefits and other economic impacts of the Project, the Agency hereby finds that the granting of the Financial Assistance by the Agency with respect to the Project will promote the job opportunities, health, general prosperity and economic welfare of the inhabitants of Nassau County, New York and the State, will improve their standard of living, and will prevent unemployment and economic deterioration, and thereby serves the public purposes of the Act; and

(h) the Project Facility does not and will not constitute a project where facilities or property that are primarily used in making retail sales of goods and/or services to customers who personally visit such facilities constitute more than one-third of the total cost of the Project. For purposes of this finding, retail sales shall mean: (i) sales by a registered vendor under Article 28 of the New York Tax Law primarily engaged in the retail sale of tangible personal property, as defined in subparagraph (i) of paragraph four of subdivision (b) of section 1101 of the New York Tax Law; or (ii) sales of a service to such customers.

Section 2. The Agency hereby ratifies, confirms and approves all actions heretofore taken by the Chief Executive Officer / Executive Director and the staff of the Agency with respect to the Application, the IDA Meeting and the Public Hearing, including, without limitation, (a) those actions required to ensure full compliance with the requirements of the Act, SEQRA and all other Applicable Laws that relate to the Project, and (b) the appointment of the law firm of Harris Beach PLLC, Uniondale, New York, as Special Counsel to the Agency with respect to all matters in connection with the Project.

Section 3. The Agency hereby determines that the Agency has fully complied with the requirements of the Act, SEQRA and all other Applicable Laws that relate to the Project.

Section 4. Having considered fully all comments received at the Public Hearing or otherwise in connection with the Project, the Agency hereby further determines to proceed with the Project and the granting of the Financial Assistance.

Section 5. The Agency hereby approves the Applicant as the lessee/sublessee under the Lease with the Agency and hereby approves the Applicants as the recipient of the Financial Assistance.

Section 6. Based upon the representation and warranties made by the Applicant in its application for financial assistance, subject to the provisions of this resolution, the Agency hereby authorizes and approves the Company, as its agent, to make purchases of goods and services relating to the Project and that would otherwise be subject to New York State and local sales and use tax in an aggregate amount of up to \$14,454,600.00, which result in New York State and local sales and use tax exemption benefits (“sales and use tax exemption benefits”) not to exceed \$1,246,709.25.

Section 7. The Agency is hereby authorized to (a) acquire an interest in the Project Facility pursuant to the Conveyance Instrument, the Bill of Sale to Agency and the other Transaction Documents, (b) grant a leasehold interest in the Project Facility pursuant to the Lease and the other Transaction Documents, (c) grant the aforementioned Financial Assistance, (d) execute the PILOT Mortgage for the sole purpose of encumbering its interest in the Project Facility or accept such other collateral as the Chief Executive Officer / Executive Director shall determine to secure the performance by the Applicant of its obligations under the PILOT Agreement, (e) execute one (1) or more fee and leasehold mortgage, assignment of rents and leases, and security agreements in favor of such bank, governmental agency or financial institution as the Applicant may determine (such bank, governmental agency or financial institution, the “Bank”), encumbering the Project Facility, solely to subject to the lien thereof its interest in the Project Facility, all to secure one (1) or more loans made by such Bank to the Applicant with respect to the Project Facility, and (f) do all things necessary, convenient or appropriate for the accomplishment thereof. All acts heretofore taken by the Agency with respect to the foregoing are hereby approved, ratified and confirmed.

Section 8. The form and substance of the Project Agreement, the Conveyance Instrument, the Bill of Sale to Agency, the Lease, the Environmental Indemnification, the PILOT Agreement, the PILOT Mortgage and the other Transaction Documents, in the forms used by the Agency with respect to prior projects, together with such changes as the Chairman, the Vice Chairman or the Chief Executive Officer/Executive Director may hereafter deem necessary or appropriate, are hereby approved.
