WHEREAS, prior to making a recommendation about the potential environmental significance of the Project, the Agency has reviewed the Environmental Information, consulted various information sources, and considered the list of activities that are Type I Actions outlined in Section 617.4 of the Regulations, the list of activities that are Type II Actions outlined in Section 617.5 of the Regulations and the criteria for determining significance outlined in Section 617.7 of the Regulations; and

WHEREAS, 6 NYCRR 617.2(ak) of the Regulations states that a Type II action is an action or class of actions identified under 6 NYCRR 617.5; and

WHEREAS, 6 NYCRR 617.5(c) states that Type II actions not subject to further review under SEQRA include “maintenance or repair involving no substantial changes in an existing structure or facility,” “replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building or fire codes, unless such action meets or exceeds any of the thresholds in section 617.4 of this Part,” the “purchase or sale of furnishings, equipment or supplies, including surplus government property” and “reuse of a residential or commercial structure, or of a structure containing mixed residential and commercial uses, where the residential or commercial use is a permitted use under the applicable zoning law or ordinance” in connection with a project; and

WHEREAS, the Project consists of renovation of the existing Building within its existing footprint and improvements to the interior of the Building to accommodate the installation of the Equipment and the reuse of the Project Facility;

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NASSAU COUNTY INDUSTRIAL DEVELOPMENT AGENCY AS FOLLOWS:

Section 1. Based upon the Agency’s review of the Environmental Information, the Agency has made the following findings:

(a) The Project is a Type II action under SEQRA, precluded from further environmental review, because it consists of the “replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building or fire codes,” the “purchase or sale of furnishings, equipment or supplies, including surplus government property” and “reuse of a residential or commercial structure, or of a structure containing mixed residential and commercial uses, where the residential or commercial use is a permitted use under the applicable zoning law or ordinance” in connection with a project and does not meet or exceed any threshold for a Type I action.

(b) More specifically, the Project involves the replacement, rehabilitation or reconstruction of a structure or facility, in kind, because it involves interior renovation and rehabilitation of an existing structure with use and occupancy by a type of use permitted within the zoning district occupied by the Land. The Project will not expand the footprint of the Project Facility nor increase or substantially alter environmental impacts associated with the Land. Finally, the Project includes the acquisition of the Equipment in connection with the above.

Section 2. The Chairman, the Vice Chairman, the Chief Executive Officer/Executive Director and the Administrative Director of the Agency are hereby further authorized on behalf of the Agency, or acting together or individually, to distribute copies of this Resolution to the Applicant and to do such further things or perform such acts as may be necessary or convenient to implement the provisions of this Resolution.
