Re: 212-214 Third Street Associates LLC and Mineola 212, LLC The Bridge, Mineola Development 212-214 Third Street, 213 Station Road, 55 Mineola Blvd and n/a Station Road, Mineola, New York S: 9; B: 674; Lots 2, 3, 5, 10-12

Dear Mr. Shrenkel:

As you may know, this firm represents 212-214 Third Street Associates LLC, Mineola 212, LLC and/or entities to be formed on their behalf (collectively, the "Company" or "Applicant"), in connection with the financial assistance from the Nassau County Industrial Development Agency (the "IDA") for the construction of a nine-story residential building consisting of one hundred one (101) for-sale condominium apartments together with substantial resident amenities and underground parking and approximately ten thousand (10,000) square feet of entertainment space plus potential mezzanine space (the "Event Space") at the above-referenced premises (the "Project"). The principals of the Applicant include Adam Mann, who is an experienced developer with a successful track record in Nassau County.

An application for financial assistance was submitted in connection with this Project on or about April 9, 2025. The Agency passed a preliminary inducement resolution for the Project on April 22, 2025. I am writing to provide updated information with respect to the Project and the requested financial assistance.

# **BACKGROUND**

The Village of Mineola (the "Village") has determined that the Project is in furtherance of the Village's Master Plan, will contribute to the vibrancy and economic stability of the Village's Downtown and, as transit-oriented development ("TOD"), qualifies as a smart growth component of Mineola's Downtown Revitalization. The Agency's Uniform Tax Exemption Policy favors Projects which are in alignment with local planning and development efforts.

May 6, 2025 Page **2** of **3** 

The Project will provide municipal benefits to the Village in the form of streetscape improvements, the addition of the Event Space along Station Road which will activate the south side of the Mineola LIRR station, as well as the Event Space being made available for Village use eight (8) days per year at no charge to the Village.

## PROJECT SITE

The Project site is currently improved by small, outdated office buildings, a garage, and was formerly improved by a recently demolished taxi stand. The site is directly across the street from the Mineola LIRR station and will provide high-quality transit-oriented development in a key area of Mineola's downtown, which is currently underutilized.

## FINANCIAL ASSISTANCE REQUESTED

The Applicant is requesting financial assistance for the Project in the form of a PILOT for the Event Space. The Applicant is requesting a 15-year PILOT for the Event Space, phasing in the increased assessment. In addition, the Applicant is requesting a PILOT for the residential portion of the Project at "land only" during construction and for a period of two (2) years after completion, with the PILOT to be released as to each residential unit at the earliest to occur of:

- (i) two (2) years after Project completion,
- (ii) the sale of each such unit, or
- (iii) (at Applicant's option) any earlier date.

Construction is expected to take approximately two (2) years.

Applicant is also requesting sales tax exemption for the construction materials and furniture, fixtures and equipment needed for construction of the overall Project and mortgage recording tax exemption for the Project financing.

The financial assistance is necessary in order to make the Project financially feasible in light of high costs of construction and high interest rates. In addition, the PILOT will alleviate the high costs and volatile nature of property taxes on the Event Space.

## PROJECT BENEFITS

By providing the financial assistance necessary to complete the Project, the IDA will help the Village accomplish its objectives for the downtown, add significantly to the county, school, town and village tax base by allowing development of for-sale condominiums, add jobs in the commercial space and increase revenue overall by incentivizing the development of the Project, which will also phase in additional assessment on the Event Space over time in the form of PILOT payments and provide for full taxes without a PILOT for the condominium units once conveyed to end users.

It is expected that there will be a minimum of ten (10) permanent jobs created by the Project.

Very truly yours,

#### The Bridge Mixed-Use Development Incorporated Village of Mineola Nassau County, New York Environmental Assessment Form – Part 1

#### Page 1, Item A. - Brief Description of the Proposed Action:

The Proposed Action involves an application for financial assistance from the Nassau County Industrial Development Agency for the redevelopment of a 0.64±- acre property located at 212 & 214 Third Street, 213 Station Road, and 55 Mineola Boulevard in the Incorporated Village of Mineola (the "Village"), Nassau County, New York (the "Subject Property"). The Subject Property is known on the Nassau County Land and Tax Map as Section 9 - Block 674 - Lots 2, 3, 5, 10, 11 & 12.

The Proposed Action is intended to redevelop an underutilized property at a key, central location, in a manner that is consistent with the Village's goals and furthers the ongoing revitalization of the Village's Downtown. Specifically, the Proposed Action involves of the redevelopment of the Subject Property with a mixed-use building consisting of 101 multifamily residences and a 10,000-square-foot public/private event and entertainment space. In conformance with the Proposed Action's application of the Downtown Overlay District, the proposed event and entertainment space would be offered to the Village for their use as the applicant's required community benefits/amenities pursuant to \$550-5 Village Code. The Applicant envisions the event and entertainment space as a venue for hosting a range of public and private events (e.g., art exhibitions, celebrations, conferences, musical performances, cultural events), which will in turn enhance the community's sense of place, create jobs, and drive foot traffic to local businesses by attracting residents into the downtown.

The Subject Property is currently developed with three commercial buildings (a two-story, 1,283±-square-foot [sf] building; a one-story, 2,493± sf building; and a one-story, 237± sf building [the taxi stand]), one 2,299± sf garage and an associated at-grade parking lot. Under the Proposed Action, all of the buildings on the Subject Property would be demolished, and the site would be redeveloped with a 189,011± sf mixed-use building consisting of nine-stories above grade and one level of underground parking containing 160 spaces. Access to the underground parking garage would be via a curb cut on Third Street. The parking layout would consist of 160 stacked spaces to accommodate the proposed number of residential units. The ground floor of the building would contain residential support and amenity spaces (e.g., package and mail rooms, trash and utility rooms), as well as the ground floor of a two-story, 10,000± sf event and entertainment space. Pedestrian entry to the building would be on Station Road to the north and to the east.

Floors two through nine will contain 101 residential units, with an overall bedroom mix of 25 onebedroom units, 60 two-bedroom units, 15 three-bedroom units and one penthouse unit. The roof top level is proposed to include additional interior and exterior residential ammenity space (e.g., library, event space, tenant lounge, seating areas, outdoor pool, dog run, gym and outdoor patio space). The proposed redevelopment would also involve the installation of a new stormwater management system. Stormwater runoff would be collected from the rooftop, courtyard areas and garage, and would be conveyed to the proposed on-site stormwater recharge system. The stormwater recharge system would be composed of a system of concrete leaching galleys located under the parking garage. Therefore, there would be virtually no stormwater overflow to adjacent properties or roadways.

Potable water and sewage disposal would be provided/accommodated by the Mineola Water and Sewer Department. Electricity would be provided by PSEG Long Island, and natural gas would be supplied by National Grid.
