Section 1. Based upon a thorough review and examination of the Environmental Information and upon the Agency’s knowledge of the area surrounding the Land and such further investigation of the Project and its environmental effects as the Agency has deemed appropriate, the Agency makes the following findings with respect to the Project:

(1) The Project is a Type II action under 6 NYCRR 617.5(c)(2), (c)(3), (c)(18), and (c)(31), precluded from further environmental review as it involves the interior rehabilitation and upgrade of the existing 63,165-sq.ft., 75-unit senior public housing residential building to a 75-unit senior affordable housing development, including the incorporation of green infrastructure and the purchase of supplies and furnishings, where the use is permitted under the applicable zoning law or ordinance and does not meet or exceed any of the thresholds in 6 NYCRR 617.4.

(2) The Project also includes the interior renovation and upgrades to the units’ interiors; the mechanical and engineering systems; and the roofing, including changes to address safety, accessibility, and the current building’s system deficiencies, as well as improvements like new laundry facilities and enhanced outdoor space. The Project will not expand the footprint of the Building nor increase or substantially alter existing environmental conditions on

the Land and also it does not exceed any threshold provided in 6 NYCRR 617.4.

Section 2. The Chair, the Vice Chair, the CEO/Executive Director and the Administrative Director of the Agency are hereby further authorized on behalf of the Agency, or acting together or individually, to distribute copies of this Resolution to the Applicant and to do such further things or perform such acts as may be necessary or convenient to implement the provisions of this Resolution.
